Foreign Exchange	No fixed fee is charged in relation to providing foreign exchange services, although we may earn a margin of up to 1.25% on any foreign exchange transaction we undertake for you. The margin will be the difference (if any) between the exchange rate that we provide to you for the transaction (the "client rate") and the exchange rate provided to us by the transacting bank for that exchange transaction (the "wholesale rate").
Cash Management Accounts	<p>The Cash Management Nominee may charge commission to the respective bank where a deposit has been made through the Cash Management Account(s). If charged, this commission is taken into account in setting the interest rate(s) paid on a Cash Management Account. Further information on the rates of commission and rates of gross interest may be obtained from your Financial Adviser.</p>

Certain investment funds may also have fees and expenses, including performance fees in some cases, which are charged by the manager and trustees. These fees and expenses will be reflected in the investment fund's unit price and may therefore indirectly affect your returns.
